Introduction

The Health and Safety Policy and the related management of health and safety appendices detail measures and procedures to maintain the well-being of everybody at King's College Alicante.

Health and Safety Statement

King's College Alicante attaches the utmost importance to the safety, health and welfare of its employees and pupils. King's College Alicante endeavours to comply with the provisions of the Health and Safety from The National Institute for Safety Health and Wellbeing at Work (INSSBT) and regulated by the law 31/95 (in Spain, Health and Safety at Work etc Act UK, and all subsequent regulations, including those implementing EC Directives. King's College Alicante is fully compliant with the local laws).

Inspired bears ultimate responsibility for the leadership and day to day responsibilities are delegated to the Executive Headteacher.

The management team will take steps so far as is reasonably practicable to ensure that the workplace is a safe and healthy environment in which its employees, pupils, contractors and other persons affected by the King's College Alicante operations can work.

The management team will make the necessary assessments, identify safety training and provide information and supervision for employees at all levels. It will consult on a regular basis with all employees with regards to health and safety issues. It will provide the necessary safety devices and protective clothing, provided that a safer working environment cannot be achieved by any other means.

Aims

King's College Alicante's work programmes will, so far as is reasonably practicable, adopt good safety practices. These will ensure:

- That all reasonable steps are taken to ensure the health, safety and welfare of all persons using the King's College Alicante premises.
- Safe methods of working exist and are implemented throughout the school for staff and pupils.
- Staff, pupils and others are instructed, as necessary, in safe working practices.
- All equipment for which King's College Alicante is responsible is in good and safe working order, and adequately protected.
- Toxic, hazardous or other dangerous substances for which King's College Alicante is responsible are correctly used, stored and labelled.
- Health and safety concerns are reported to the H&S Specialist.
- The continued development of safety awareness amongst staff, pupils and other supervising adults.

Co-operation

All aspects of health and safety remain a leadership responsibility. However a safe and healthy workplace can only be achieved with the full cooperation of every employee.

Employees are duty bound to act responsibly and to do everything possible to prevent personal injury to themselves and to others. They must also safeguard all persons to whom King's College Alicante owes a duty of care: namely people who may come into contact with their work; pupils, parents, visitors etc. To achieve this, employees must:

- Obey all the safety rules and procedures, including the wearing of protective clothing and the use of protective devices if they are specified by the school risk assessments.
- Exercise their awareness, alertness, self-control and common sense at work.
- Report promptly using the [maintenance request form](#) all hazards, potential hazards, defects in equipment and any shortcomings in the school's work systems or procedures. Any serious health and safety concerns should be immediately reported in person to the Health & Safety Officer (Ana Justicia) or the Executive Headteacher.

Employees should not be in any doubt that the school will apply disciplinary procedures to any employee who intentionally breaches King's College Alicante's health and safety policy. This includes any specific safe systems of work, instructions, training and procedures laid down for the protection of those involved in school's operations, and for those who may become involved in them.

Policy Review

This policy will be regularly revised, by the Executive Headteacher as necessary (but at a minimum of one year intervals). In conducting the policy reviews, due regard will be given to the following:

- Planning: The elimination of risks in the workplace by careful selection and design of facilities, equipment and processes, together with effective control measures and training for employees.
 - If appropriate, the school will consider the risk to safety involved in:
 - Dealing with physical, chemical and biological hazards, such as machinery safety, chemical safety, and the school building structure.
 - Contractors in schools.
 - Vehicle movements within the school grounds.
 - Workplace arrangements, including maintenance.
 - School trips.
 - Work experience arrangements.
 - Violence to staff.
 - School security.
 - Stress management.
 - Letting of school premises to outside bodies.
 - Pupils with special needs, i.e. manual handling.
 - Any other site specific issue, e.g. gardens and playgrounds.
- Organisation: A review of the King's College Alicante's organisation including changes to ensure that responsibilities for health and safety are clearly defined at all times to all employees at every level.
- Control: Ensuring that the safety requirements are implemented throughout the school by all employees and that training is regularly conducted in support of those standards.

Monitoring and Review

Health and Safety Walks will be carried out and a Health and Safety Committee conducted each Term. Every term the H&S Officer fills in iAuditor platform and will form the basis for monitoring and review, to ensure that a credible standard of health and safety is achieved.

Health & Safety Management

Inspired has overall responsibility for the implementation of the policy and will ensure that sufficient finance provision is made available to support the policy.

In order to achieve the aims and objectives of the health and safety policy these issues will be brought regularly to the attention of the school's Health & Safety Committee and Executive Headteacher. The Health & Safety Officer and the Executive Headteacher meet every fortnight to discuss ongoing issues.

A copy of the Health and Safety Handbook will be given to all employees when they join King's College Alicante. When changes have been made to the handbook or to the policy, copies will be placed on the school's School server.
